REFRIGERATORS

PATENTED COOL SHOWER TECHNOLOGY*

The Godrej Eon frost free refrigerators give you the best in cooling through its Patented Cool Shower Technology. The Inbuilt air vents under the refrigerator shelves dock into the Multi Flow Duct at the back and shower cool air on the food stored below on the shelves, ensuring superior all round cooling. The cool shower technology gives us 10% faster door cooling & uniform cooling, thus ensuring longer food preservation.

COMPRESSOR WARRANTY

If any time within 10 years from the date of purchase of the appliance there is an issue with the compressor then the same would be either repaired or replaced free of cost by Godrej.

ENERGY SAVING UP TO ₹ 9300*

Godrej Edge Pro inverter direct cool refrigerators are the most energy efficient refrigerators in the country as certified under the BEE 2017 energy rating norms. The Edge Pro inverter range gives you a cumulative annual savings of Rs 9300 over other refrigerators.

*Energy Savings calculated over a period of 10 years at the rate of ` 7 per Kwh (i.e per unit) and may differ on respective state electricity tariff rates. Energy saving calculator is for Godrej Edge Pro 205 TDI 5.2, 5-star model when compared to 3-star model.
