

WHEN THE AIR
IS IMPURE,
DISEASES SPREAD
FASTER.

AIR INDOORS IS **10X MORE DETRIMENTAL** THAN OUTDOOR AIR!

It is a common misconception that the air outdoors is more polluted and poses severe health risks. Studies have found that the air in a home or office is up to 10 times more toxic as compared to outdoor air. 10 times!

We spend 8-10 hours per day in the office on a regular basis, breathing in air consisting of PM 2.5 particles, bacteria & viruses from mould, dusty surfaces and excessive dampness. This contaminated air rarely leaves the office premises, leading to severe respiratory illnesses.

Moreover, air conditioners operating inside closed office structures with lack of sufficient ventilation causes the same stale, polluted air to be recirculated, resulting in drastic ailments.

EFFECTS OF BREATHING **CONTAMINATED INDOOR AIR**

- **Fatigue and Drowsiness**
- **Asthma and Allergies**
- **Heavy eyes**
- **Heavy breathing**
- **Headache**
- **Dwindling concentration**

YOUR WORKPLACE IS CONSIDERED YOUR SECOND HOME. AND OUR AIR PURIFIERS ENSURE IT STAYS THAT WAY.

**Aeroguard Pro's range of air purifiers
ensure only the cleanest and purest of air.**

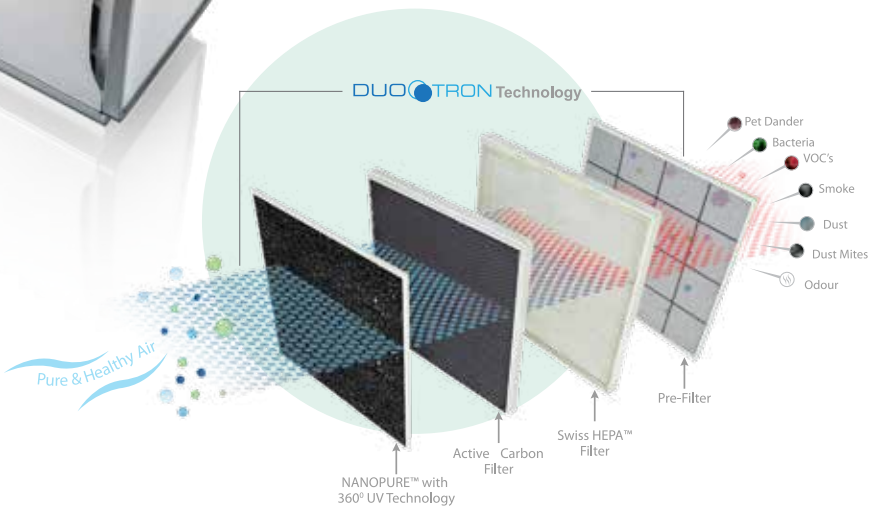

Introducing the Eureka Forbes Aeroguard Pro™, that not only purifies the air, but also makes it free from infections. A fusion of niche design and science, the Aeroguard Pro™ sits comfortably in your office, perfect for the job. Its unique multi-stage filtration process and the anti-bacterial filter removes harmful bacteria that spread infections and prevents common airborne diseases, providing pure, fresh & pollutant-free air. The result – healthier employees!

AEROGUARD PRO™ 1000

Pure Air, Guaranteed.

Pre Filter

The Pre Filter removes large particles like dust, hair, pet dander and fibres.

Swiss HEPA™ Filter

A highly efficient filter capable of removing up to 99.99% of micro-particles such as fine dust, pollen and mould spores.

Activated Carbon Filter

The granular activated carbon eliminates gases & odours of natural and chemical origin, like tobacco smoke & cooking smell.

NANOPURE™ with 360° UV Technology

The patented NANOPURE™ is effective in neutralizing viruses and bacteria in the air and contributes to healthy indoor air quality.

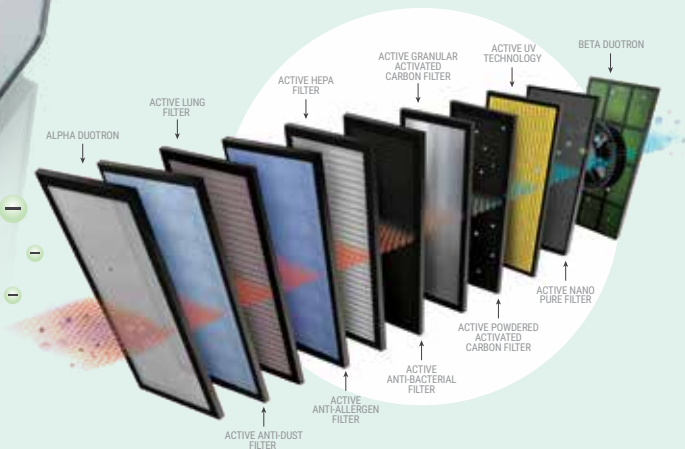

Eliminates respirable airborne particles & infections
 Makes the air 99.9% pure and healthy

AEROGUARD PRO™ 1000H

Purified Air, Through & Through.

Alpha Duotron

This stage traps and destroys heterogeneous micro-organisms. It activates anti-dust filter, anti-allergen and HEPA.

Active Anti-dust Filter

Removes PM 10 and above dust particles.

Active Lung Filter

Removes dust particles and protects the HEPA filter life.

Active Anti-allergen Filter

Removes human allergens like pollen, pet dander, hair, etc.

Active HEPA™ Filter

Removes PM 2.5 particles, bacteria and fungus.

Active Anti-bacterial Filter

Anti-bacterial filter inhibits growth of micro-organisms and prevents the breeding of micro-organisms on filters.

Active Granular Activated Carbon Filter

Active Carbon removes dangerous VOCs and smell.

Active Powdered Activated Carbon Filter

Removes toxic chemicals like formaldehydes and other dangerous chemicals.

Active UV Technology

Active UV treatment destroys heterogeneous micro-organisms, i.e. bacteria and virus.

Active NANOPURE™ Filter

NANOPURE™ filter breaks down all the organic molecules and also destroys micro-organisms.

BETA Duotron

Destroys micro-organisms, revitalises the air and creates a refreshing environment.

**CERTIFIED BY
GUL LAB GERMANY**

**BUILT-IN
HUMIDIFIER**

Maintains required
humidity

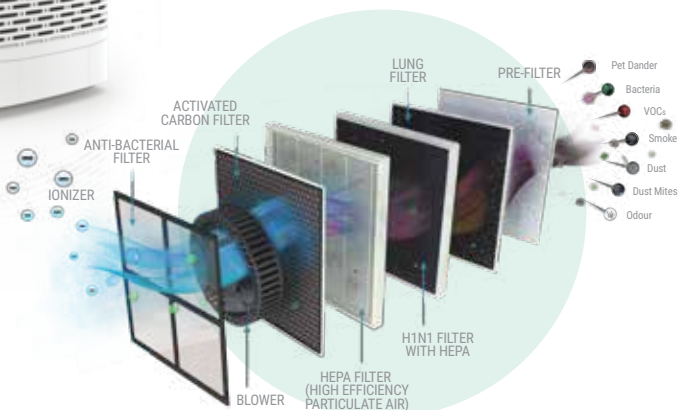

**ACTIVESHIELD™ HEPA+
FILTRATION SYSTEM**

Eliminates 99.99%
airborne pollutants

AEROGUARD PRO™ 2000

**Maximum Filtration,
Maximum Purification.**

Pre Filter:

The Pre Filter removes large particles such as dust, hair, pet dander and fibres.

Lung Filter:

Removes dust particles that possess harmful chemicals.

H1N1 Filter with HEPA™

Prevents from dangerous H1N1 swine flu. HEPA filter removes 99.97% of micro-particles such as PM 2.5, PM 10, fine dust, pollens and mould spores.

HEPA™ Filter (High Efficiency Particulate Air)

HEPA filter, full composite synthetic filter is capable of removing 99.97% of micro-particles, such as particulate matter (PM 2.5 & 10), fine dust, pollens and mould spores.

Activated Carbon Filter

The granular activated carbon eliminates gases & odours of natural and chemical origin, like tobacco smoke & cooking smell.

Anti-bacterial Filter:

Anti-bacterial filter inhibits the growth of micro-organisms and prevents their breeding on filters.

Ionizer

It not only destroys micro-organisms, but also maintains the level of freshness in the room.

1 YEAR WARRANTY

7 STAGE FILTRATION

AREA COVERAGE
208 m²

HEALTHY AIR,
PURE AIR

ELIMINATES
PM 2.5

REMOTE CONTROLLED

Aeroguard Pro 1000

Technical Specification

Power	73 W
Voltage Frequency	AC200 ~ 240V/50/60 Hz
Noise Level (Max.)	≤60 Db
Timer Function	Yes
Applicable Area	83 m ² (892 sq ft)
Clean Air Delivery Rate	319 m ³ /h
Wind Speed	upto 9
Net Weight	9.2 kg
Product Size (HXWXD)	53x45x23

Aeroguard Pro 1000H

Technical Specification

Power	17-120 W
Voltage Frequency	200-240 V AC/50/60 Hz
Noise Level (Max.)	<=60 dBA
Timer Function	Yes
Applicable Area	104 m ² (1120 sq ft)
Clean Air Delivery Rate	400 m ³ /h
Wind Speed	upto 9
Humidifier	Yes
Net Weight	9.2 kg.
Product Size (HXWXD)	52x45x23 cm

Aeroguard Pro 2000

Technical Specification

Power	85 W
Voltage Frequency	220 V 50 Hz
Noise Level (Max.)	65.9 dB(A)
Timer Function	1-12 H
Applicable Area	208 m ² (2239 sq ft)
Clean Air Delivery Rate	800 m ³ /h
Anion Concentration	10 million / cm ³
Wind Speed	4 Grade of Wind
Control operation	Touch Panel + Remote
Protection Function	Inter Lock + Child Lock
Net Weight	14 kg.
Product Size (HXWXD)	40x40x66.9 cm
